

DISTRICT HEALTH PROFILE

District Peshawar

2009

USAID
FROM THE AMERICAN PEOPLE

The document was made possible through support provided by the United States Agency for international Development (USAID), under the terms of cooperative agreement number 391-A-00-05-01037-00 and sub-agreement number 36098-02 for PAIMAN.

The Pakistan initiative for Mothers and Newborns (PAIMAN) is a 6-year USAID funded project designed to reduce country's maternal and neonatal mortality by making sure that women have access to skilled birth attendants during childhood and throughout postpartum period. PAIMAN works at national, provincial and district levels to strengthen the capacity of public and private health care provider and improve health care system. The PAIMAN program is jointly implemented by John Snow Inc (JSI), Contech International, John Hopkins Center for Communication Program (JHU/CCP), Agha Khan University and Population Council.

INTRODUCTION

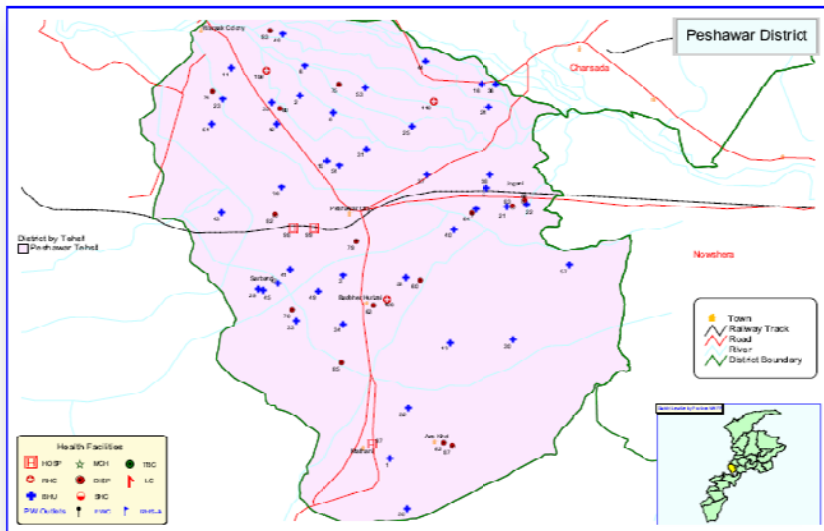

The purpose of this document is to simplify, package, and communicate complex information on vital statistics and the local burden of disease in a practical, accessible format for district health planning. It is intended for use by District Health Management Teams (DHMTs), federal/ provincial/regional governments and other development partners. Most of the information is provided in tabular format with short explanatory captions and minimum text to provide 'picture' of the current demography and disease burden. The data source is the district health and education departments; however, specific data in this report has been taken from District Census Report 1998.

The document has been divided into various sections mentioned below:

1. **District at a glance:** This section contains general information about the district; like history, location, area etc.
2. **Accessibility:** This section facilitates reader in approaching the district from other districts or provincial/federal capital by road, rail or air.
3. **Culture:** Knowledge of cultural and social customs facilitates in getting access to the general population. This section provides brief about cultural setup and livelihood in the district.
4. **District Administrative Setup:** An administrative setup along with reporting lines is given in this section. brief on district
5. **Demographic Information:** Demographic breakdown of the district population structure, by age and sex, is important from Mother & Newborn Child Health (MNCH) point of view. The information given in this section can used to predict the target population in upcoming years and plan interventions for improvement of health status in the district.
6. **District Health Department:** This section provides basic information of district health department. It provides organogram of the department, types of health facilities, human resource and budget information, and selected health indicators.
7. **District Education Sector:** The information regarding tehsil wise number of educational institutions in public sector is given in the section that can be useful in planning collaborative strategies for improvement of health status in the district.

We anticipate that this document would be helpful for planning district health interventions by PAIMAN and government health authorities.

DISTRICT HEALTH PROFILE PESHAWAR

1. District at a Glance

Peshawar is a district in the North-West Frontier Province of Pakistan. At independence in 1947 the old Peshawar District became Peshawar Division, containing the current district of Peshawar until divisions were abolished as part of local government reforms in 2000. The city of Peshawar is the capital of district as well as province. "Peshawar" literally means *The High Fort* in Persian and is known as *Peshawar* in Pashto.

*Facades in Peshawar's
Walled City*

Peshawar is situated near the eastern end of the Khyber Pass and sits mainly on the Iranian plateau along with the rest of the NWFP. The Peshawar valley is nearly circular bounded on the North and North East by hills, which separate it from the Valley of Swat. In the

*Islamia College,
University of Peshawar*

northwest are the rugged mountains of Khyber and to the South is the continuation of spur which branches off from Safed Koh (the famous White Mountain on the Afghan border) and runs to Indus. The lower portion of this branch separates the district of Peshawar and Kohat.

The total area of district is 1,257 sq. km.

2. Accessibility

Peshawar is connected with the country through a wide network of roads, railways and airways. The Peshawar International Airport serves the city and the province as the main international airport in the region. It is served by all airlines of Pakistan. Railway also connects Peshawar to all parts of Pakistan as well as Afghanistan.

The city is linked to the main motorway as well as the Karakorum Highway from which it is connected to all of the major cities of Pakistan including Karachi, Lahore, Islamabad, Rawalpindi, Faisalabad and Multan. The roads are also linked to Afghanistan and China.

In the city, there are all sorts of methods to travel around the city, from coaches, buses, rickshaws (Auto rickshaws), yellow and black taxis as well as traditional methods such as horse and carts.

3. Culture

Peshawar is one of the most ancient cities of the world and for centuries has been a centre of trade between Afghanistan, South Asia, and Central Asia as well as the Middle East. It is a conservative Islamic city with a rich history. Over 99% of the Peshawar population is Muslim. Despite overwhelmingly Islamic nature of modern Peshawar, it was previously home to other smaller communities such as Afghan Jews, Zorastrian, Bahá'ís, Hindus and Sikhs. Its famous markets such as the Qissa Khawani Bazaar (market of story tellers) are emblematic of this mixture of culture and offer everything including goldsmiths and silversmiths, traditional carpets (one of the big exports of Pakistan today), pottery, and clothing to artwork in wood, brass and semi-precious stones. Even today, Peshawar is the commercial, economic, political and cultural capital of the Pashtuns as well as a major center of Hindko culture in Pakistan.

4. Administrative Setup

Like any other district in the country, district Peshawar is headed by District Coordination Officer (DCO) assisting Zila Nazim and is accountable to him. DCO, appointed by provincial government from the federal or provincial civil

service, coordinates with Executive District Officers (EDOs), who head each of the twelve district offices including health.

District Peshawar has one Tehsil i.e. Peshawar. There are 92 union councils in the district with 56 rural and 36 urban. There are four Towns in Peshawar and one Cantt area.

5. Demographic Information

Total population in year 2008 is 2,864,724

Sr.#	Towns	Population
1.	Peshawar Cantt	88,689
2.	Town I	720,878
3.	Town II	762,091
4.	Town III	674,722
5.	Town IV	618,344
	Total	2,864,724

Union council wise breakup of population is shown below:

6. District Health System

The health care delivery network is headed by Executive District Officer (Health). Being the team leader, the EDO Health is assisted by the Deputy District Officer Health, the Medical Superintendents of City hospital and Children Hospital, District Coordinators of MIS, EPI, NP and PH Coordinator.

a. Organogram

The organizational structure of district health department is given below:

b. Health Facilities

The number of health care facilities in district Peshawar is given below:

Type	No.	No. of beds
DHQH	1	150
THQH	1	50
RHCs	2	24
BHUs	25	-
MCHCs	15	-
Dispensaries	13	-
Reproductive Health Services-A (RHS-A)	1	-
Family Welfare Centres	3	-

c. Human Resource Position

Total health care personnel of selected positions working in the district are as under:

Posts	Number	
	Sanctioned	Filled (Dec. 2008)
Gynecologist	3	2
Pediatrician	3	1
Anesthetist	-	-
Radiologist	-	-
Women Medical Officers (WMOs)	18	18
Medical Officers (MOs)	105	105
Blood Transfusion Officers (BTOs)	-	-
Lady Health Visitors (LHVs)	57	57
Nurses	64	64
Midwives (DAI)	35	35
Lady Health Workers (LHWs)	849	849
Laboratory Technician	5	5
Health Technician	101	101
Vaccinators	135	135

Following table shows the demographic information of different population groups in the district:

Population Groups	Standard Demographic (%)	Estimated Population (2008)
New born	4.0	114,589
0-11 months	2.24	64,170
12-23 months	-	-
Under 5 years	15.87	454,632
0-14 years	44.04	1,261,624
Women in child bearing age (15-49 years)	21.8	624,510
Married Child bearing age	15.5	444,032
Pregnant Women	4.5	128,913

d. Health Indicators

Indicator	Data from Jan-Mar 2009 <i>(Source: Baseline MIS Survey-PAIMAN)</i>
Number of ANC cases registered	4728
Number of pregnant women provided TT 2 immunization	11948
PNC cases visited by LHW within 24hrs of delivery	1348
Number of children <1 yr receiving DPT 3 immunization	11843
Number of children <5 yr treated for diarrhea at public HF's	8086
Number of children <5 yr treated for pneumonia at public HF's	15646
Number of facilities reporting stock out of contraceptive commodities (DHQH/THQH/RHCs)	4
Indicator	Data for year 2008 <i>(Source: National Program for FP & PHC)</i>
Total deliveries conducted by skilled attendant	13957
Number of live births	18248
Number of still births	472
Total newborn deaths	225
Total obstetric (maternal) deaths	12

e. Budget Allocation and Utilization

Total budget allocation of current year for District Health Department in district Peshawar is as under:

Item	Year 2008-09
Total District Health Sector Budget	Rs.125,072,530
Development	Rs.20,300,000
Non-Development	Rs. 104,772,530

7. Education Sector
